

MILITARY FRANCHISING

I am proud to notify you that, after much research and compiling survey results and other data, Safe Ship has been named by ***G.I. Jobs magazine*** as a ***Military Friendly Franchise*** for 2011!

This honor ranks you in the top 10% of all franchises nationwide. You should take great pride in this designation.

As a ***Military Friendly Franchise***, you will be included on the official 2011 list which publishes this May via a press release.

Clearly you have an interest in recruiting military franchisees, and I urge you to continue your already stellar efforts by improving your military-friendliness every year. Your policies, efforts and results used to recruit and retain military veterans were carefully gleaned through our survey and weighted into our rankings. For the record, ***Military Friendly Franchises*** will not be ranked within the list.

On behalf of the 3 million military members and veterans seeking a franchise, I thank you for your commitment to offering business ownership opportunities to our nation's most deserving heroes.

Sincerely,

Rich McCormack
